

Fig. 1

Fig. 2

Figure 3a and 3b are plots of the output of the system for two different input signals. The input signal for Figure 3a is a square wave, and the input signal for Figure 3b is a triangular wave. The output signal for Figure 3a is a square wave, and the output signal for Figure 3b is a triangular wave. The plots show the output signal over a time interval of 0 to 2000 units. The y-axis represents the amplitude of the signal, ranging from -200 to 100. The x-axis represents time, ranging from 0 to 2000 units.
